

Have you heard about Vinland?

This questionnaire is being distributed by the German artist Rona Rangsch in the context of her new project. Rona has been working in and about Newfoundland before. Her interest in the place is based on its historical and geographical particularity as well as on its scenic beauty. By means of video and photography as well as text and sound Rona aims to capture selected aspects and phenomena that strike her unprejudiced mind.

If you have heard about Vinland and want to participate in Rona's work by answering the questions below in an email you will be kept updated about her current project *The Vinland Phenomenon* in the further course of its realization.

Rona will be in Newfoundland until mid August 2015, but you can still get in touch with her after that period as well.

Please note that parts of your answers and statements from this questionnaire may be quoted by the artist in a video or photo work or in an artist book.

1. What do you know about Vinland?
2. What do you associate with it? Give characteristics of Vinland.
3. Can you depict Vinland - in words or through a drawing?
4. Would you want to live in Vinland?
5. Is there anything else about Vinland you want to share?

Please send your answers / images by email to: rona_rangsch@yahoo.de

The project is kindly supported by the German Foundation for Canadian Studies and the Tilting Recreation & Cultural Society.
